

REDA YAHYANI

FULLSTACK DEVELOPER

Agadir, Morocco | yahyanireda@gmail.com | yipa-01.github.io/portfolio/ | +212 6 21 99 55 30

SUMMARY

Full-Stack Developer with 2+ years of freelance experience building and shipping production web applications end-to-end. Comfortable owning the full development lifecycle, from architecture and implementation to deployment and operations. Continuously trying to bring ownership mindset into an enterprise scale agile team, with a strong focus on clean code, performance, and continuous improvement.

WORK EXPERIENCE

Software Developer (Freelance) *Present*

Exploda – Design & Dev Agency

- Developing web applications using TypeScript within a professional design & dev agency environment.
- Collaborating remotely on client projects, contributing across frontend and backend development tasks.

Jan 2024 – Jun 2026

Self-employed

- Architected and delivered full-stack web systems for clients end-to-end, from requirements to production deployment.
- Developed REST API integrations and automated data pipelines using Python (Pandas, NumPy), significantly reducing manual reporting time.

3 Months

Customer Service Advisor | Foundever (Abbott Project)

- Resolved complex technical issues for medical diagnostic equipment, developing a deep understanding of user pain points and system reliability.
- Translated technical troubleshooting steps into clear, user-friendly solutions, maintaining high satisfaction ratings in a fast-paced environment.

PERSONAL PROJECTS

Intelligent Career Guidance Platform (Gen.z)

- Built a data-driven orientation platform using a modern tech stack to provide personalized career paths based on user input and market trends.
